Allowable Subject Matter

1. After a further search and a thorough examination of the present application and in light of the prior art made of record, claims 9, 11-13, 15-20 and 23 are found to be in condition for allowance.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a video decoding method and video decoder comprising a display control section determining a number of display fields of each of pictures based on parameters of the pictures, and allowing the pictures to be displayed on a display unit for a predetermined period of time equivalent to the number of display fields; and which includes four shift registers of a re-order register for storing a parameter of either an I picture or a P picture and a bank address thereof, a current register for storing a parameter of a picture and a bank address thereof, the picture being subsequently displayed, a field delay register for delaying the parameter and the bank address shifted from a current register by one field time, and a display register for storing a parameter of a picture and a bank address thereof, which is being displayed.

It is noted that the closest prior art of record (Takabatake et al. US Patent no. 6,320,909) teaches a similar video decoding method and video decoder, however, Takabatake fails to particularly teach or suggest *“allowing pictures to be displayed on a display unit for a predetermined period equivalent to a number of display fields, and a display control section which includes four shift registers of a re-order register for storing a parameter of either an I picture or a P picture and a bank address thereof, a current register for storing a parameter of a picture and a bank address thereof, the picture being subsequently displayed, a field delay register for delaying the parameter and the bank address shifted from a current register by one field time, and a display register for storing a parameter of a picture and a bank address thereof, which is being displayed.”* as specified in the claims.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled “Comments on Statement of Reasons for Allowance”.
